MATERIAL CONSUMPTION NORMS FOR THE CONSTRUCTION OF SLIPWAYS (REPARATIONS)

25X1A

(14 pp; German;

distribution date: 2 Jan 53

25X1X

This photostated document consists of material consumption norm forms, M 430, for the construction of slipways under ~~re~~ reparations order No. R 70/30424. The slipways are to be built by the ABUS Maschinenbau VEB (People-Owned Machine-Building Enterprise for the Construction of Mining and Heavy Industry Equipment), Nordhausen, of the Main Administration for Heavy Machine Building under the GDR Ministry of Machine Building.

The forms describe the material consumption norms applicable to the construction of the following equipment:

A complete slipway

Friction slip winches, 20 tons ^{traction} ~~lifting~~ power, and spare parts

Slip cars, 300 tons, and spare parts

Launching cars, not self-propelled, and spare parts

Launching cars, self-propelled, and spare parts

Cable cars for slipway

Buoy with fixed anchor

Electric capstans

Materials for preliminary work

Technical equipment

Packing material for the slipway

The information contained in the ^{heading of the} individual forms includes the following (all values in DM): 7-digit production order number; 8-digit commodity number; number of units to be produced; delivered price; etc.

The individual columns of the tables are headed as follows: 7-digit ~~production order~~ ~~number~~ plan item number; designation of raw materials or supplies, per unit produced; unit of measurement; quantity or value of material used (gross); ~~quantity of~~ material used converted into: weight (kg), cost price, and constant price.
